#### **FUN FACT ABOUT INDONESIA**

## (https://m.brilio.net/creator/4-adab-anak-kepada-orang-tua-menurut-ajaran-islam-82bda0.html)

Indonesian people always use greeting words at the beginning of someone's name. For example, Indonesian people always call "Bapak (Name)" "Ibu (Name)" "Kakak (Name)" to older people. But Indonesian will call people's names directly if they are the same age or younger. A person calling an elder by name directly would be considered rude and unethical.

Indonesian rarely use the words "Paman" and "Bibi" but rather "Mas" (Derived from Javanese) or "Mba".

"Kakak or adik laki-laki" in Indonesia is also called "Saudara" while "Kakak or adik perempuan" is also called "Saudari".
